

Jurisdictions with a Reduced Diversion Requirement

Public Resources Code (PRC) Section 41787 allows the Board to grant rural jurisdictions a reduction from the 50 percent diversion requirement established in PRC Section 41780, if certain conditions are met. The jurisdictions below were previously granted a reduction to the 50% diversion requirement, and met those conditions. Due to the low sensitivity of disposal tonnages, the annual per capita disposal rates measured in pounds per person per day (ppd) can fluctuate significantly.

Note: Title 14 of the California Code of Regulations (CCR) Section 18775 allows for rural jurisdictions, as defined in PRC Sections 40183 and 40184, to petition the State for reductions in the planning and diversion requirements, and specifies the information which must be provided in support of a petition. Effective January 1, 2009, the definitions for rural jurisdictions will change as follows: (1) PRC Section 40183(a) will define a "Rural city or rural regional agency" as "a city or regional agency that is located in a rural county as defined in Section 40184" and (2) PRC Section 40184(a) will define a "Rural county" as a "county or multi-county regional agency that annually disposes of no more than 200,000 tons of solid waste."

Jurisdiction	County	Approved Reduced Diversion Req.	Approved 50% Equivalent Per Capita Disposal Target (ppd)	2007 Annual Per Capita Rate (ppd)	2008 Annual Per Capita Rate (ppd)	2009 Annual Per Capita Rate (ppd)	2010 Annual Per Capita Rate (ppd)	2011 Annual Per Capita Rate (ppd)
Alpine-Unincorporated	Alpine	25%	14.5	13.3	11.8	8	7.6	8.1
Alturas	Modoc	16%	6.8	7.3	6.5	5.5	5.7	5.9
